

category	group	test	main id	ENDPOINT protections (software, Saas)	GATEWAY protections (hardware, software, Saas)	
EFFICACY	against malicious objects	on-demand scanning started by the user	V11	V11g	N/A	
		file copy from a folder to an other folder	V12	V12g		
		executing/opening malicious files	V13	V13e		
		restoring the clean environment	V14	V14g, V14r, V14n, V14f		
	against malicious links	url	V21	V21g, V21p	V21g, V21p	
		exploit	V22	V21x	N/A	
	against malicious traffic	exfiltration	V31	V31t	V31t	
PERFORMANCE	utilization tests	memory (idle)	V51	V51	N/A	
		memory (busy)	V52	V52		
		disk	V53	V53		
		network traffic	V54	V54c		V54c
	time tests	installation, uninstallation	V61	V61	N/A	
		boot time	V62	V62		
		on-demand full scan	V63	V63c		
		on-access file copy (local)	V64	V64c		
		on-access file copy (to network)	V65	V65c		V65c
		on-access file copy (from network)	V66	V66c		V66c
		MSI file installation	V67	V67		N/A
		opening URL pages in the browser	V68	V68c		V68c
	third party benchmark tests	Velocity Test Suite test,	V71	V71	N/A	
		PCMark Vantage's test.	V72	V72		

Object codes	
r	rootkit
e	executable
n	ransomware
f	fake antivirus
c	clean files
g	general malicious file
t	malware produce network traffic

Link codes	
p	phishing
g	general malicious url
e	url to malicious executable
c	clean links
x	exploit

BLACK	executed regularly
RED	under development
